

Multiplying two float numbers

```
#include <stdio.h>
```

```
int main(){
```

```
    float num1, num2, product;
```

```
    printf("Enter first Number: ");
```

```
    scanf("%f", &num1);
```

```
    printf("Enter second Number: ");
```

```
    scanf("%f", &num2);
```

```
    product = num1 * num2;
```

```
    printf("Product of entered numbers is: %.3f", product);
```

```
    return 0;
```

```
}
```
